Frameworks & Libraries: React.js, Bootstrap, Tailwind CSS, Node.js, Express.js

Databases: MongoDB

Tools & Platforms: VS Code, Git, GitHub, Firebase, Hostinger, RESTful APIs

Concepts: Responsive Web Design, SEO, Performance Optimization

EXPERIENCE

Frontend Developer | Vizweb Solutions

- Maintained and enhanced website functionality, managing the full project lifecycle from concept to deployment for various client projects.
- Executed time-sensitive updates and ensured all deliverables met client specifications and requirements.
- Collaborated with back-end developers to optimize data handling and application performance, resulting in a 100% front-end performance boost using batch processing techniques.
- Developed over 10 responsive web applications utilizing HTML, CSS, JavaScript, and Bootstrap.
- Implemented SEO best practices across projects, improving organic search visibility by 30%.

PROJECTS

Mini Chat AI - Developed an interactive chat application using React and integrated the Gemini API for intelligent responses. Link: <https://arun-19n.github.io/Chat-Ai-demo/>

React Weather App - Built a weather application that fetches and displays real-time weather data from the OpenWeatherMap API. Link: <https://arun-19n.github.io/Weather-App-React/>

Startup Website - Engineered a fully responsive website from scratch for a startup, ensuring cross-browser compatibility. Link: <https://vizwebsolutions.com/>

Clothing E-Commerce Website - Created a visually appealing and user-friendly front-end interface for a clothing brand. Link: <https://sripada.netlify.app/>

Training Institute Website - Designed and developed an interactive website for a training institute to showcase courses and information. Link: <https://besttraininginstitute.co.in/>
